Memo To Parents Regarding H1N1 Influenza-A

We want to keep you up-to-date with how we are responding to the “swine flu” at school. Presently, we intend to continue with school as normal. We will keep you informed in the event of any changes that impact the school day. We will update the web site, send notices home, and contact you if necessary. We are staying informed through many different avenues, including the Center For Disease Control, Virginia Department of Health, Occupational Safety and Health Administration (OSHA), and the Virginia Council for Private Education.

We will be very proactive at school with illnesses. If your child tells you he/she feels sick, please believe them and keep them home. If your child exhibits any symptoms such as fever, sore throat, runny nose, fatigue, coughing, chills, achiness, diarrhea, vomiting, etc., **please** keep them home. We will be more aggressively sending children home who complain of similar symptoms. As always, please remind your children to wash their hands often, including after bathroom use and before eating.

We are using all of the cleaning precautions that have always been enforced. Our janitorial services are informed and actively cleaning as recommended. Classrooms are being cleaned and sanitized frequently. You are welcome to send hand sanitizer and/or wipes with your student and for your student’s use alone.

Thank you for your participation and cooperation in keeping our school healthy and safe!

*DBCS is accredited by the Association of Christian Schools International
This accreditation is recognized by the Commonwealth of Virginia and the Virginia Council for Private Education*
